Hello Players,

We are excited to be using the SWISH app to run our events. SWISH helps automate the scoring, matchups, court assignments, and other aspects of leagues and games.

Please download the "SWISH Sports"app here:

https://apps.apple.com/us/app/swish-mobile/id1551295361

You do not need to "join" or "view" anything on SWISH prior to the event. When you arrive on the day of our event, we will have you join your respective games with your Swish app by scanning the game's QR Code or Join Code.

DUPR EVENTS:

If you will be playing in a DUPR event, you will need to have your Swish Profile linked to your DUPR ID prior to arrival. Here are instructions for linking:

(*Be sure to have your correct DUPR login email and password BEFORE logging into SWISH)*

- Log into Swish. Go to profile page (bottom right tab)
- Click "link DUPR ID" button (located at the top) and type DUPR info
  (*This screen looks like DUPR, but you are still in SWISH)*
- You will be automatically directed back to SWISH Profile page
- If entered correctly, you will either see your DUPR Score or NR (no rating)
- If incorrect, your SWISH profile will say NA - it is not linked.

Linking your DUPR account to Swish: https://youtu.be/Zn_WeiqyIvo

If you are new to Swish and would like to see how the app works, watch this video to see Swish in action in a Pickleball Tournament:
